

Scalability & Future Plan

Date	9-7-2026
Team ID	Individual
Project Name	Loan approval prediction
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Supports limited users	Slow performance	High
2	Local database only	Limited storage	Medium
3	Basic security features	Risk of unauthorized access	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Limited users	Deploy on cloud to support many users
2	Data Storage	Local database	Use MySQL/PostgreSQL or cloud database
3	Performance	Basic ML model	Optimize model and improve response time
4	Security	Basic login	Add OTP, encryption, and secure authentication

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 1	Admin Dashboard	1month	Better management
Phase 2	Mobile Application	2months	Easy user access
Phase 3	Cloud Deployment	3months	Better scalability

Phase 4	AI-based Loan Recommendation	6months	More accurate predictions
---------	------------------------------	---------	---------------------------
