Project Name	Loan Approval Prediction Using Machine Learning
Maximum Marks	4 Marks

Empathy Map

This empathy map represents the perspective of a customer applying for a credit card. It helps understand the applicant's needs, concerns, actions, and emotions so that the machine learning system can provide faster and fairer approval decisions.

SAYS	THINKS
• I need a loan with quick approval. • I hope my application is accepted. • I want a transparent approval process.	• Will my credit score affect approval? • is my income enough to get the loan? • I hope the decision is fair and accurate.
PERSONA NAME Loan application (Customer/User)	
DOES	FEELS
Fills the loan application form. Uploads the required documents. Checks the loan application status.	• Worried while waiting for approval. • Confident if all documents are correct. • Happy when the loan is approved.
